MEDICINAL.

Will It Cure Me?

That's the personal question a woman asks herself when she reads of the cure of her favorite disease by the use of Dr. Pierce's Favorite Prescription. Why should it cure her? Is it a complicated case? Thousands of such cases have been cured by "Favorite Prescription." Is it a condition which local doctors have declared incurable? Among the hundreds of thousands of sick women cured by the use of Dr. Pierce's Favorite Prescription there are a great many who were pronounced incurable by local doctors. Wonders have been worked by "Favorite Prescription" in the cure of irregularity, weakening drains, inflammation, ulceration and female weakness. It always helps. It always cures.

"Three years ago," writes Mrs. John Graham, of 2015 Plum Street, (Frankford) Philadelphia, Pa., "I had a very bad attack of dropsy which left me with heart trouble, and also a very weak back. At times I was so bad that I did not know what to do with myself. My children advised me to take your 'Favorite Prescription,' but I had been taking so much medicine from the doctor that I was discouraged with everything. I determined to try it myself. I took seven bottles, and today I am a strong, well woman, weighing 135 pounds. Have gained 25 pounds since I started to use 'Favorite Prescription.'"

Dr. Pierce's Pleasant Pellets clear the complexion and sweeten the breath.

GOMERS APPREHENSIVE.

At the session of the American Federation of Labor in New Orleans yesterday President Gompers in his address said: "Beyond doubt the greatest problem, the danger which above all others most threatens not only the success, but the very existence of the American Federation of Labor, is the question of jurisdiction, and unless our affiliated national and international unions radically and soon change their course we shall at no distant day be in the midst of an internecine contest unparalleled in any era of the industrial world, and, not even when workmen of different trades were arrayed against each other behind barricades in the streets over the question of trade against trade. They mutually regarded each with hatred and treated each other as mortal enemies. Is the great cause of labor to drift into such a dreadful and miserable strife? Are all the sacrifices made to be ruthlessly thrust into the gutter as the germ, to fructify and destroy the vigor, the very life, of our cause? Is organized labor, the only check to rapacious greed and tyranny, the only hope of labor for protection now or liberty for the future, to be engulfed in a tidal wave of expansion madness? No combination of labor's enemies need cause us the apprehension which this fratricidal strife does in the claims made by unions for the extension of trade jurisdiction. There is scarcely an affiliated organization which is not engaged in a dispute with another organization (and in some cases with several organizations) upon the question of jurisdiction. It is not an uncommon occurrence for an organization, and several have done so quite recently, to so change their laws and claims to jurisdiction as to cover trades never contemplated by the organization's officers or members; never considered by their title; trades of which there is already in existence a national union. And this without a word of advice, counsel, or warning. This contention for jurisdiction has grown into such proportions and is fought with such intensity as to arouse the most bitter feuds and trade wars. In many instances employers fairly inclined toward organized labor have been made innocently to suffer from causes entirely beyond their control, and other employers again have taken advantage of first inception of the fancy or notion for 'expansion' of trade jurisdiction, fanned it into a flame, and taking advantage of the excitement and hatred of war against each other, refused to recognize either organization, pretending to claim it as a war among labor organizations. Without in any way being desirous of influencing your judgment upon any one of the cases which may claim your attention, it is strongly urged that action be taken by this convention that shall tend to check the indiscriminate attempts made to extend jurisdiction of any organization without the consent of the organization of the trade already in existence."

CRIME IN LONDON.

The annual report of the chief commissioner of the London police shows a large increase in the number of crimes in the metropolitan area, despite the augmentation of the police force. Against this, however, is the fact that 301 new streets, with a total length of sixty miles, and containing 27,174 houses, were built in London in 1901. It is computed that the increase in population has been 120,000. The metropolitan police district now contains 688 square miles of territory. The officers and men of the force number 15,977. Their wages aggregate \$1,396,000. A notable feature of the year's criminal investigation is the success of the finger-print and anthropometric tests for identifying criminals, a method long in use in France, but only lately introduced in London.

MUSIC MAY RESTORE MUSICIAN'S MIND.

The influence of music, as played by the Boston Symphony Orchestra, is expected to restore to reason a young musician who has been a patient in the Hudson-River State Hospital for the Insane at Poughkeepsie, N. Y., for the past six months. The young man is Bruno Beehn, who was himself a member of the Boston Orchestra until he broke down from overwork and had to be sent to the hospital for treatment. When it was announced that the orchestra was coming to Poughkeepsie the young musician petitioned the superintendent to be allowed to attend the concert. The concert last night had such a beneficial effect that physicians believed yesterday it would prove the means of effecting a permanent cure and his early discharge is expected.

MACKAY SEES DIVORCE.

Two months Lester Newell Mackay has pressed his best man into service to serve the papers in his divorce action upon the newly made Mrs. Mackay. Until her marriage to Mr. Mackay, on September 2 last, Mrs. Mackay was well known in New York and New Haven as Miss Virginia Hope Stackpole. Mr. Mackay brought his bride to live in New York. Then later Mr. Mackay says his wife began to notice the attentions of other men. To her alleged meeting with an old admirer he attributes the suit for divorce.

Jumped on a Ten-Penny Nail

The little daughter of Mr. J. N. Powell jumped on an inverted rake made of ten penny nails, and one nail was thrust entirely through her foot and a second one half way through. Chamberlain's Pain Balm was promptly applied and five minutes later the pain had disappeared and no more suffering was experienced. In three days the child was wearing her shoe as usual and with absolutely no discomfort. Mr. Powell is a well known merchant of Forkland, Va. Pain Balm is an antiseptic and heals such injuries without maturation and in one-third the time required by the usual treatment. For sale by Richard Gibson, Druggist.

A Thanksgiving Dinner.

Heavy eating is usually the first cause of indigestion. Repeated attacks inflame the mucous membranes lining the stomach, expose the nerves of the stomach, producing a swelling after eating, heartburn, headache, sour risings and finally catarrh of the stomach. Kodol relieves the inflammation, protects the indigestion, dyspepsia, all stomach troubles by cleansing and sweetening the glands of the stomach. E. S. Leadbeater & Sons.

There is one rational way to treat nasal catarrh; the medicine is applied directly to the affected membrane. The remedy is Ely's Cream Balm. It restores the inflamed tissues to a healthy state without drying all the life out of them and it gives back the lost senses of taste and smell. The sufferer who is tired of vain experiment should use Cream Balm. Druggists sell it for 50 cents. Ely Brothers, 56 Warren Street, New York, will mail it.
